GET TO KNOW OUR PRESENTERS IN ORDER OF THEIR APPEARANCE

The Side by Side a capella Singers are a group of 8 women who have harmony down to an art. Their voices blend so well they need no musical accompaniment. Even if you have only a moment to stop by and listen to one song, it will be worth your time.

James Bohn is a soloist, vocal artist, former Anthem Singer for Minnesota Wild, designer/contractor at SingularDesign, and will sing the Star Spangled Banner for us.

Nancy Burgeson is our Queen of sweet treats. She is the owner of Top Tier. Nancy never fails to come up with a new way to tempt our tastebuds. She was involved in the Twin Cities Live 12 days of Cookies last Christmas. If you missed seeing her on TV then, you will have a chance to see her in person at the Ladies Showcase. She teaches community education classes and group classes. You can reach her to get her schedule at toptiermn@aol.com

Gail Dennison, MA CFRE, is Director of Development and External Relations and **Brenna Gerhart** is Development Admin Manager at The Hormel Institute. The Hormel Institute was started in 1942 by Jay C. Hormel. It is an independent biomedical research department within the University of Minnesota. The Hormel Institute and University of Minnesota have partnered together for nearly eight-decades, making significant scientific discoveries aimed at improving the health of the world. They are a leader in cutting edge biomedical research and have some of the world's most expert scientists. You can sign up for their monthly newsletter at www.hi.umn.edu

Ronai Burmett is an author and doTerra certified essential oils coach. She will be sharing how essential oils affect your sense of well-being and how the stress cycle in the body can be interrupted with some simple techniques. She will have some relaxation tips for you and some samples of essential oils for you to try as well.

Officer Mallory House and her canine partner, Brick, will be special guests at the Ladies Showcase. They will give us a first-hand look at the skills and training it takes to be a K-9 team. Officer House and Brick are part of the illustrious K-9 Unit within the St Paul Police Department. It is the second oldest K-9 Unit in the United States and currently has 15 Officer/Canine teams that provide 24/7 coverage. Their mission is to support the patrol districts with basic patrol dog responsibilities. The canines specialize in criminal suspect searches/apprehensions, evidence searches, explosive detection, narcotic detection, open area searches, site security and tracking. The K-9 Unit is part of the much larger St Paul Police Department which employs approximately 800 people, including 575 sworn officers. Those officers respond to nearly 300,000 calls for service and investigate about 13,000 Part 1 crimes each year.

Steve Hurvitz is the MSRA parliamentarian and volunteer extraordinaire. He was instrumental in acquiring and creating the Learning Jet. The Learning Jet is a renovated Boeing 727-200 cargo jet that is now a classroom for K-12 students and community organizations. It is the first non-profit organization of its kind in the nation. The mission on The Learning Jet is to spark students' interest in STEM (science, technology, engineering and math) by exposing them to fun, engaging and practical aviation education programs and activities. <https://www.thelearningjet.org>

Attorney, Bill Huefner did such a fantastic job of sharing his expertise last year, we invited him back for a repeat. Before becoming an attorney with Barna, Guzy & Steffen, Bill worked as an accountant, including five years with the Internal Revenue Service. He has up to date tips on estate planning, trusts, wills and probate. He shares his knowledge freely and is able to advise you how to structure things to the advantage of those you love.

Natasha Powel is part of the team at the Minnesota Autism Center. Natasha will highlight the programs that the Minnesota Autism Center (MAC) has in place to aid individuals and families who are challenged with Autism. The Minnesota Autism Center (MAC) provides therapeutic services to those between the ages of 18 months and 21 years of age, who have the autism spectrum disorder. Their philosophy is "one size does not fit all". They recognize each child as a unique special person who happens to have autism. <https://www.mnautism.org>

The Star Chiefs Band plays Rockabilly (a classic style of rock and roll music), and they play it expertly. They have been with the Ladies Showcase since 2008. They were great then and have gotten better and better each year. We invite them back, quite simply, because they are a fantastic band and you, the audience, come to see them again and again. Contact Mike at thestarchiefs@gmail.com

The School of Rock. You aren't going to want to miss this "battle of the bands" as each of the three Twin Cities schools (Plymouth, Eden Prairie and St Paul) have the best of their bands play rock and roll music for us from 10am to 2pm on Sunday.

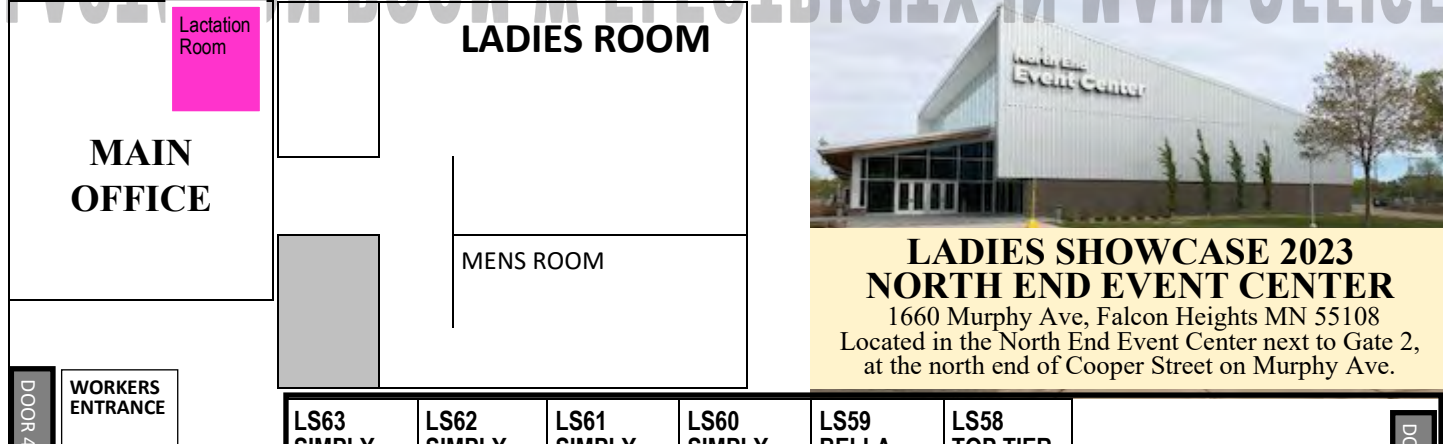

The School of Rock is considered one of the most revolutionary music education schools in the world. They combine one on one lessons with group band practices giving their students, from toddler to adult, the ultimate music learning adventure. They use their innovative techniques to teach lead guitar, bass guitar, drums, keyboard and vocals. <https://www.schoolofrock.com>
